

## Zytoplast TT (For Terry Towels)

**Zytoplast TT** is a new generation Modified Tapioca Starch compound specially formulated with speciality additives for terry towel sizing. The product has excellent adhesion to cotton.

**Zytoplast TT** gives excellent lubricity, flexibility and abrasion resistance making it an ideal compound for spun yarn sizing.

**Zytoplast TT** is based on modified starches making it easier to desize with regular desizing methods used by Terry towel industry.

Features	Benefits
Homogeneous compound	Can be used alone or with R-soft-44.
New surface chemistry	Excellent adhesion, lower dropping & improved lubricity.
Chemical modification of starch	Stable viscosity, excellent wetting & lower retrogradation temperature.
Improved solubility	Easily desizable .
Excellent film formation and compatibility	Improves strength, reduces loss in elongation, allows easy opening and lower dropping on looms.

### Specifications:

Appearance	:	Light white colour powder
Solid content	:	93 ± 2%
Solubility	:	Easily soluble in hot water above 85°C
Chemical composition	:	Blend of additives with starch

### Application:

The product can be cooked from 2 to 3 % concentration for Pile layer & 8 to 10% for ground layer depending on sizing requirement. The product can work by itself as a single product.

## **Desizing:**

Desizing of this compound is relatively easy.

## **Preparation:**

Add-on % of this product should be decided by user taking into consideration gain in strength required maintaining reasonable loss in elongation and surface protection required for controlling hairiness of the final yarn. The optimum % pick-up varies from Mill to Mill and from sort to sort depending on yarn quality and types and speed of the looms used.

## **Cooking Procedure:**

Take water and add **Zytoplast TT** powder to cooking vessel. Stir for 10 minutes and start the cooking by injecting steam. One can cook in closed vessel at atmospheric or high-pressure conditions, depending on concentration of size. The time can vary from 60 minutes to 30 minutes depending on heating profile and final temperature achieved.

The cooked solution is generally stable in viscosity and small drop may be seen over extended storage beyond 2-4 hours. The cooked size solution should be maintained at 85 - 90°C in storage vessel with indirect heating. Concentration should be monitored by refractometer for routine control along with viscosity cup for maintaining % concentration and viscosity at a given temperature.

## **Complimentary products:**

- ❖ **Ran 1000:** Acrylic based binder for spun yarn sizing
- ❖ **R Cryl:** Acrylic based binder for spun yarn sizing
- ❖ **Z-3000 ACP:** polyester resin based binder for spun yarn sizing
- ❖ **R-soft-44:** Softener for spun yarn sizing

## **Storage:**

- Do not store **Zytoplast TT** bags above 50°C or in direct sun.
- Stable for 6 months, if stored in a shade at room temperature.

**Disclaimer:** *The information in this leaflet is given in good faith but without warranty. We recommend that before using our products, the customer should make his own tests to determine the suitability of the products for his own purpose under his operating conditions. As the circumstances under which our products are stored, handled and used are beyond our control, we cannot assume any responsibility for their use by the customers.*

## **MATERIAL SAFETY DATA SHEET**

1. Trade Name : **ZYTOPLAST TT**

**Company:**

ZYDEX INDUSTRIES  
25A, GANDHI OIL MILL COMPOUND  
GORWA  
VADODARA-390016, INDIA

**Emergency information:**

ZYDEX INDUSTRIES  
TELEPHONE NO.+91 265 2280865, 2283386 FAX NO.91 265 2280872

2. **Composition/information on ingredients:**  
Chemical nature: **Modified Starch** with additives.

3. **Possible hazards**

Critical hazards to man and the environment: Non-Hazardous

---

4. **First aid measures:**

General advice:	Remove contaminated clothing
If inhaled:	Keep patient calm, remove to fresh air
On skin contact:	Wash thoroughly with soap and water
On contact with eyes:	Wash affected eyes for at least 15 minutes under running water with eyelids help open, consult an eye specialist.
On ingestion:	Rinse mouth and then drink plenty of water

---

5. **Fire fighting measures:**

Suitable extinguishing media:	Water spray, dry extinguishing media, foam, carbon di-oxide (CO <sub>2</sub> ) Non-flammable and hence no fire hazard.
-------------------------------	--

---

---

**6. Accidental release measures:**

Personal precautions:	No special measures necessary
Environmental precautions:	Do not let product enter drains
Methods for clearing up:	Contain with absorbent material and dispose. Clean with water.

---

**7. Handling and storage**

Handling:	Ensure thorough ventilation of stores and work areas
Protection against fire & explosion:	No special measures necessary
Storage:	Keep tightly closed in a dry and cool place.

---

**8. Exposure controls and personal protection**

Personal protective equipment	
Respiratory protection:	Avoid breathing vapour
Hand protection:	Protective gloves
Eye protection:	Goggles
General safety and hygiene measures:	The usual precautions for the handling Of chemicals must be observed.

---

**9. Physical and chemical properties**

Form	:	Powder
Colour	:	Creamish White
Solid content	:	93 ± 2%
Flash point	:	>100°C
Ignition temperature:		>200°C
Explosion hazard	:	No explosion hazard
Vapour pressure	:	N/A
Solubility	:	Soluble in hot water above 85°C
pH value	:	Approx. 6.5 – 7.0
(at 10% conc. in water when cooked)		

---

---

10. **Stability and reactivity**

Storage time: 6 months

Hazardous reactions: None provided product is correctly processed

---

11. **Toxicological information:** NON-TOXIC

---

12. **Ecological information:**

General Notes:

Do not allow material to be released to the environment without proper governmental permits.

---

13. **Disposal consideration:**

Product: Must be dumped or incinerated in accordance with local regulations

Contaminated packaging: Uncontaminated packs can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.

---

14. **Transport Information:** Not a hazardous material for transportation.

**DOT regulations**

Hazard class : Not regulated.

Land transport ADR/RID (Cross-border)

ADR/RID Class : Not regulated.

Maritime transport IMDG:

IMDG Class : Not regulated.

Air transport ICAO-TI and IATA-DGR:

ICAO/IATA Class : Not regulated.

Transport/Additional information : Not dangerous according to the above specifications.

---

---

## 15. **Regulations**

Product related hazard information:

\*Hazard symbols: Non-hazardous

\*Safety phrases:

26 In case of contact with eyes, rinse immediately with plenty of water  
& seek medical advice.

---

## 16. **Other Information**

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of the information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product conformance with this Material Safety Data Sheet, or in combination with any product or process, is the responsibility of the user.
